

Economic Stimulus Payments

Diagram 4: I Received a Check But For the Wrong Amount

Unfortunately, there is nothing that can be done for now. The IRS should have mailed you a letter titled Notice 1444 - "Your Economic Impact Payment" to your address on file a few weeks after your Economic Impact Payment was made.

It is important that you keep this Notice for your records so that you can refer to it when you file your 2020 tax returns next year in order to potentially claim additional credits on your 2020 tax return if you are eligible for them.

The IRS may post additional information regarding this issue on their website www.irs.gov in the future regarding further action that may need to be taken.
